

## Textbooks made easy.

This form enables you to authorize your son or daughter to make returns, exchanges, and additional purchases in the future with your credit card information, without you or your card needing to be present.

We will keep this form securely on file to be used for future transactions.

Your son or daughter will need a valid picture ID at the time of purchase, and we will bill or credit your card with their signature. They can make purchases for anything in the store including books, school supplies, clothing, gift items and more. Alternatively, you have the option to restrict the usage of the card to just books and school supplies.
